The Secret Jazz Club

Our Mission

At The Secret Jazz Club, we're on a mission – to give music-lovers an experience where the atmosphere matches the quality of the musicianship.

It must have felt amazing to be at the first sizzling of the Hot Club of France, or to have felt electric chills at the Birth of Cool, and it's that spirit and excitement that we want to capture – not as a retro pastiche, but with a mix of new and newly interpreted songs played by top professional musicians and vocalists who just love what they do.

Share the thrill of our amazing pop-up Jazz Clubs with your guests to enjoy a truly unique experience they will remember.

About Us

We are a collective of world class musicians whose credentials include Ronnie Scott's, The Cheltenham Jazz Festival, 606 club and numerous European venues.

Performing for one night only at incredible locations from roof top gardens to private clubs and classic venues we create an evening like no other that is sure to thrill your guests, paying homage to the classic jazz clubs where the music was hot, the clientèle were smart, and the atmosphere electric.

We encourage all our guests enter into the spirit by bringing a little glamour of their own to the occasion.

Our Music

Whether revisiting the Great American Songbook in our own unique way, delivering original material or re-interpreting modern pop classics, our Jazz has a distinctively contemporary edge, mixing commercialism with outstanding musicianship.

If after relaxing to our thrilling Jazz set you feel ready to step it up a little our Swing has a horn section so hot you'll need a tequila to cool down.

Looking for something a little different? Our Electro Swing mixes vintage jazz with contemporary beats to create a unique fusion that is taking Europe by storm.

Styles We Play

Jazz

With artists such as: Ella Fitzgerald, Gregory Porter, Frank Sinatra and Kurt Elling as our guide we play from the Great American Songbook through to modern day classics from Coldplay to Coltrane. Mixed with original material that represents the best of Jazz today.

Swing

Our Swing is smart and sharp true to the spirit with a distinctively contemporary edge.... with a horn section so hot you'll need a tequila to cool down.

Electro Swing & Jazz Manouche

If you are new to Electro Swing prepare to fall in love with this glorious mix of vintage swing and modern beats which has taken Europe by storm guaranteed to bring you to the dance floor.

Originating in Paris, Jazz Manouche or Gypsy Jazz as it is sometimes called, mixes violin, clarinet and guitars. More recently it has been combined with bass and electro beats, to give a distinctive sound and infectious groove.
